

GND: GND	VCC: power supply
OUT: Signal output	NC: no need connect
Working voltage: 3.3V/5V	Size : 29.4mm*28.8mm

Infrared receiving module, as an infrared receiver, it is used to receive the infrared signal sent by the infrared remote controller, and the corresponding signal value can be obtained by decoding. The different buttons of different infrared remote control have different infrared signal values. We can complete corresponding operation by judging the received value.
